## DETAILED ACTION

### *Specification*

1. The disclosure is objected to because of the following informalities: The specification lacks appropriate subtitles.

Appropriate correction is required.

### *Allowable Subject Matter*

2. Claims 1-20 are allowed.

The following is an examiner's statement of reasons for allowance: Regarding independent claim 1, the prior art of record neither shows nor suggest a low pressure mercury vapor discharge lamp comprised of, in part, the ration of the weight of mercury m (Hg) in the discharge vessel to the product of the internal diameter D(in) and the length of the discharge vessel L(dv) is given by the relation:

$$(m(hg)/D(in) \times L(dv)) = C,$$

wherein  $C \leq 0.01$  micro grams/mm(sqr)

along with the rest of the limitations of the claim.

Due to their dependency, claims 2-20 are necessarily allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

3. This application is in condition for allowance except for the following formal matters:

Please refer to the above Office Action.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
